1. Moon
2. Most
3. Train
4. Damage

Question_03:

Find the number of triangles in the given figure:

- A. 5
- B. 8
- C. 9
- D. 10

Question_04:

Create at least three test cases by using this URL- <https://www.amazon.com/> (the more, the better but only if it makes sense).

Note: Use an excel sheet to create the test cases

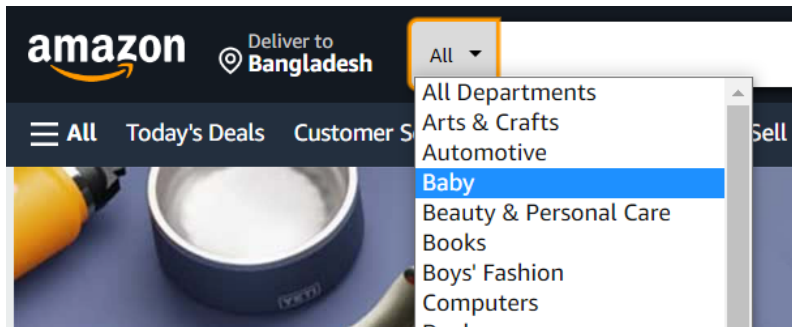

Question_05 (This is not a mandatory question but it will be an advantage if you can complete it) :

Execute the test cases by using an automation framework (You can feel free to choose the framework that suits you best). Please use this url -

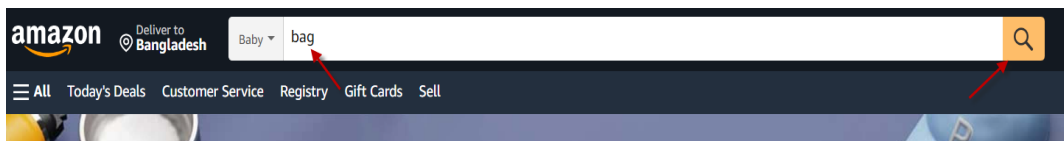

<https://www.amazon.com/>

Cases are as follows -

Case 1: Select the element from the drop-down.

Case_02: Insert the text for search and click the search button

Case_03: Close the browser.

=> Record a video of when you start/build to setup the project with any IDE and write the test script and continue to record it max 10 to 15 minutes and send it to us. And also please send us the script files in a zip folder.

(Video is mandatory for number 5).
